TEXT EDITOR, TERMINAL, BROWSER

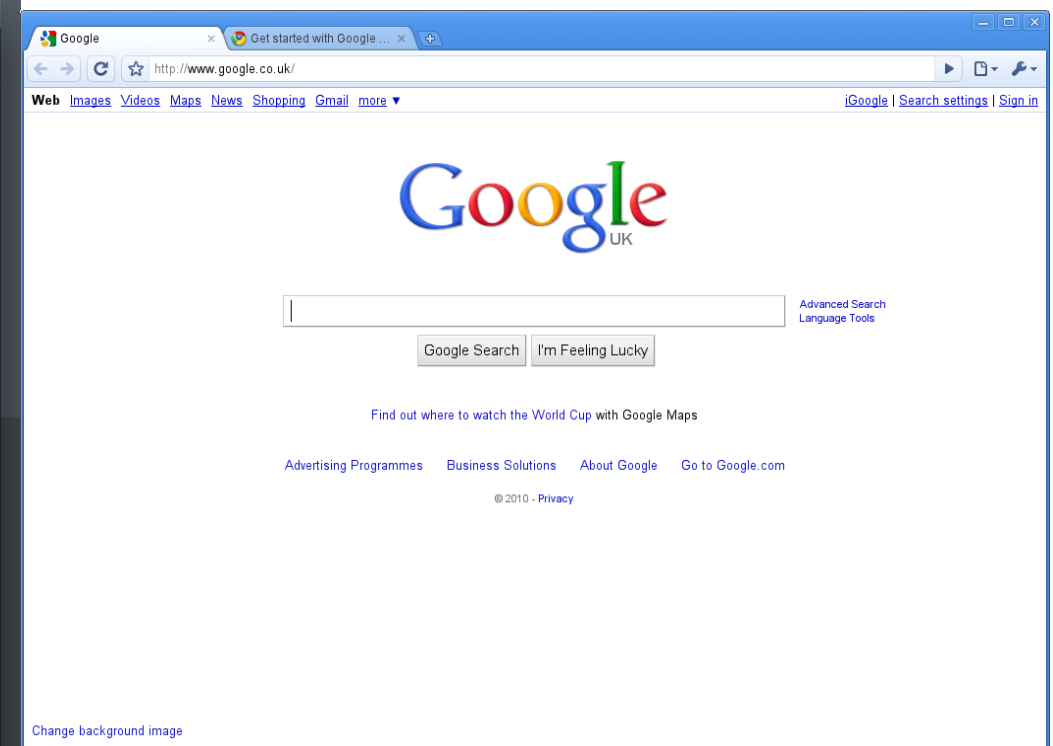

A screenshot of the Sublime Text 2 text editor. The main window displays C++ code for an animation container. The code includes comments, includes, using directives, and function definitions. A sidebar on the right shows a file explorer with a tree view of the project files, including animation_container.h, animation_container.cc, animation_container_unittest.cc, and various animation modules like linear_animation.cc, multi_animation.cc, slide_animation.cc, and throb_animation.cc. The status bar at the bottom indicates 'Line 1, Column 1'.

```

4
5 #include "app/animation_container.h"
6
7 #include "app/animation.h"
8
9 using base::TimeDelta;
10 using base::TimeTicks;
11
12 AnimationContainer::AnimationConta
13 : last_tick_time_(TimeTicks::Now
14   observer_(NULL) {
15 }
16
17 AnimationContainer::~AnimationConta
18 // The animations own us and stop
19 // elements_ is not empty, someth
20 DCHECK(elements_.empty());
21 }
22
23 void AnimationContainer::Start(Elem
24   DCHECK(elements_.count(element) ==
25
26
27 if (elements_.empty()) {
28   last_tick_time_ = TimeTicks::Now();
29   SetMinTimerInterval(element->GetTimerInterval());
30 } else if (element->GetTimerInterval() < min_timer_interval_) {
31   SetMinTimerInterval(element->GetTimerInterval());
32 }
33
34 element->SetStartTime(last_tick_time_);
35 elements_.insert(element);
36 }
37
38 void AnimationContainer::Stop(Element* element) {
39   DCHECK(elements_.count(element) > 0); // The element must be running.
40
41   elements_.erase(element);
42 }
```

A screenshot of a terminal window titled '2. steve@Steves-MacBook-Pro: ~/Dropbox/railsbridge/docs (zsh)'. The terminal shows the output of the 'git status' command. The output indicates that there are changes not staged for commit, specifically a modification to 'sites/workshop/overview.deck.md'. It also shows that no changes were added to the commit. The terminal prompt is 'docs git:(master) *'.

```
→ docs git:(master) * git status
# On branch master
# Changes not staged for commit:
#   (use "git add <file>..." to update what will be committed)
#   (use "git checkout -- <file>..." to discard changes in working directory)
#
#       modified:   sites/workshop/overview.deck.md
#
no changes added to commit (use "git add" and/or "git commit -a")
zsh: command not found: svn_prompt_info
→ docs git:(master) * █
```
