OHAI!

Goal of the day

BUILD (AND PUBLISH)
A WEB APPLICATION

BUILD (AND PUBLISH)
A PROFILE PAGE

YOUR DEVELOPMENT SET UP

TEXT EDITOR, TERMINAL, BROWSER

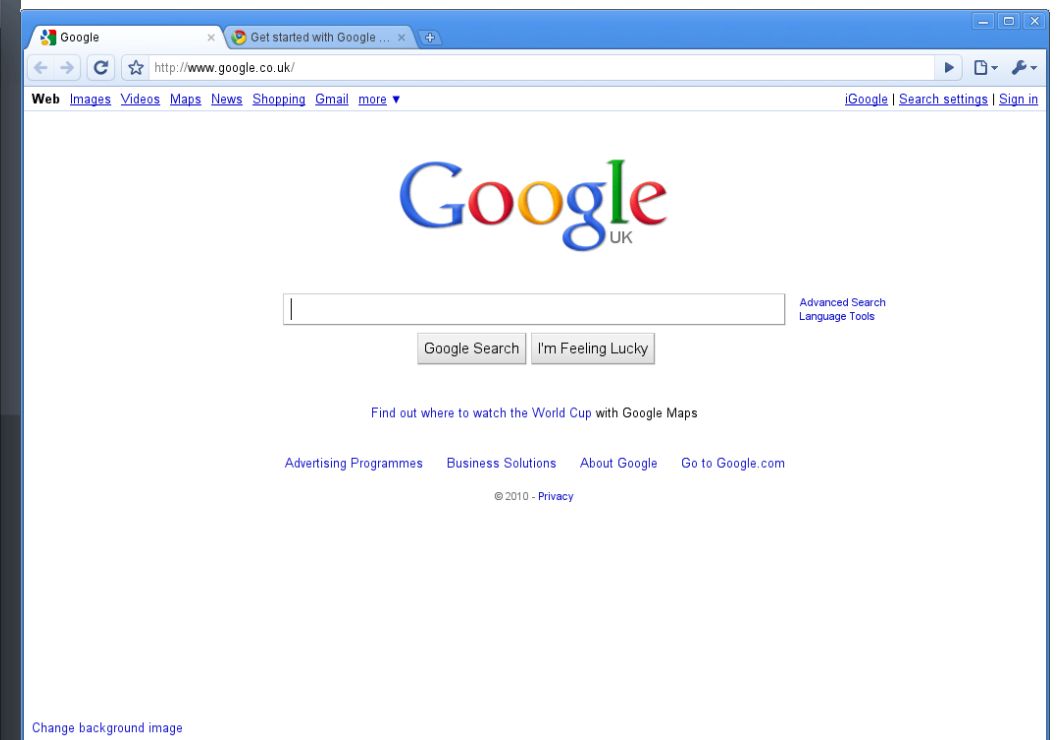

A screenshot of the Sublime Text 2 text editor. The main window displays C++ code for an animation container. The code includes comments, includes, using statements, and function definitions. A sidebar on the right shows a file explorer with a tree view of the project files, including animation_container.h, animation_container.cc, animation_container_unittest.cc, linear_animation.cc, multi_animation.cc, slide_animation.cc, and throb_animation.cc. The status bar at the bottom indicates 'Line 1, Column 1'.

A screenshot of a terminal window titled '2. steve@Steves-MacBook-Pro: ~/Dropbox/railsbridge/docs (zsh)'. The terminal shows the output of the 'git status' command. The output indicates that the user is on the 'master' branch and that there are no changes staged for commit. The terminal text is as follows:

```
→ docs git:(master) ✗ git status
# On branch master
# Changes not staged for commit:
#   (use "git add <file>.." to update what will be committed)
#   (use "git checkout -- <file>.." to discard changes in working directory)
#
#       modified:   sites/workshop/overview.deck.md
#
no changes added to commit (use "git add" and/or "git commit -a")
zsh: command not found: svn_prompt_info
→ docs git:(master) ✗
```
