TEXT EDITOR, TERMINAL, BROWSER

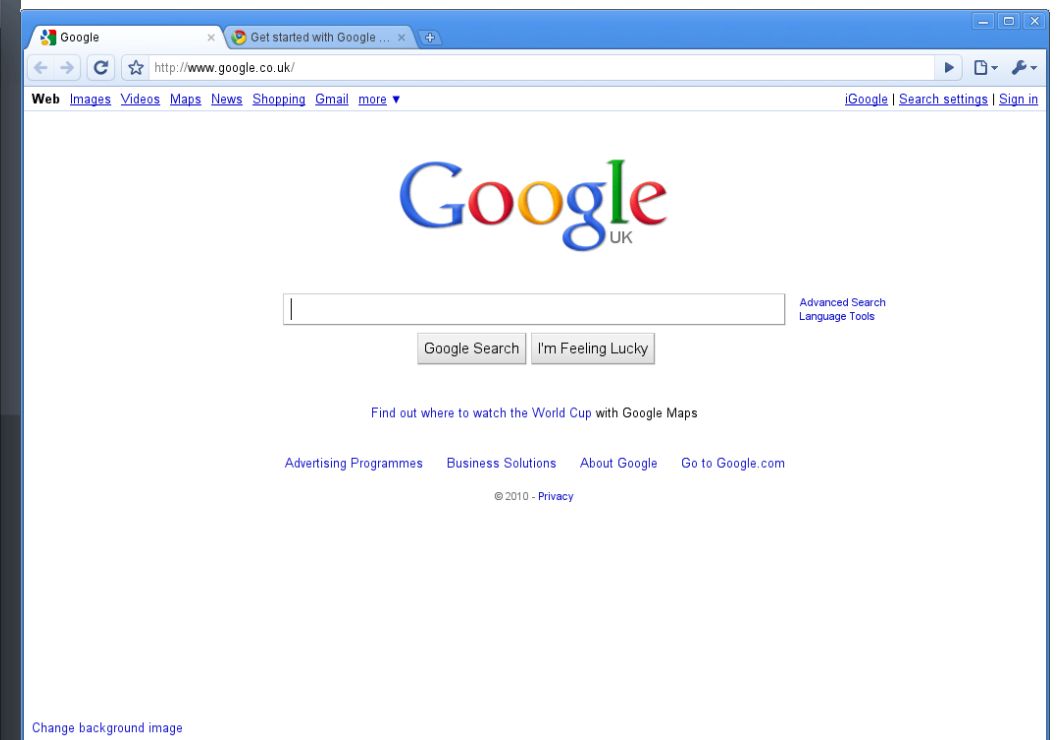

A screenshot of the Sublime Text 2 text editor. The main window displays C++ code for an animation container. The code includes comments, includes, using statements, and function definitions. A sidebar on the right shows a file explorer with a list of files: animation_container.cc, animation_container.h, animation_container_unittest.cc, linear_animation.cc, multi_animation.cc, slide_animation.cc, and throb_animation.cc. The cursor is positioned at the start of the first line of code.

```

4
5 #include "app/animation_container.h"
6
7 #include "app/animation.h"
8
9 using base::TimeDelta;
10 using base::TimeTicks;
11
12 AnimationContainer::AnimationContai
13 : last_tick_time_(TimeTicks::Now)
14 , observer_(NULL) {
15 }
16
17 AnimationContainer::~AnimationConta
18 // The animations own us and stop
19 // elements_ is not empty, someth
20 DCHECK(elements_.empty());
21 }
22
23 void AnimationContainer::Start(Eleme
24 DCHECK(elements_.count(element) ==
25
26
27 if (elements_.empty()) {
28   last_tick_time_ = TimeTicks::Now();
29   SetMinTimerInterval(element->GetTimerInterval());
30 } else if (element->GetTimerInterval() < min_timer_interval_) {
31   SetMinTimerInterval(element->GetTimerInterval());
32 }
33
34 element->SetStartTime(last_tick_time_);
35 elements_.insert(element);
36 }
37
38 void AnimationContainer::Stop(Element* element) {
39   DCHECK(elements_.count(element) > 0); // The element must be running.
40
41   elements_.erase(element);
42 }
```

A screenshot of a terminal window. The terminal shows the output of the 'git status' command. The output indicates that the user is on the 'master' branch and that there are no changes staged for commit. The terminal also shows the command 'git status' being executed and the output 'no changes added to commit (use "git add" and/or "git commit -a")'. The terminal prompt is 'docs git:(master) x'.

```
→ docs git:(master) x git status
# On branch master
#
# Changes not staged for commit:
#   (use "git add <file>.." to update what will be committed)
#   (use "git checkout -- <file>.." to discard changes in working directory)
#
#       modified:   sites/workshop/overview.deck.md
#
no changes added to commit (use "git add" and/or "git commit -a")
zsh: command not found: svn_prompt_info
→ docs git:(master) x
```
